Kristyn Shaner
Regional Sales Representative
Wexler Packaging Products, Inc

Hi Kristyn,

Our direct to consumer food shipments are completely “off the charts” right now! Honestly, it is more like November or “early Christmas” than March/April. Since March 24 we shipped 3,000 parcels.

Given the rapid and extreme increase in demand, I have personally spent a lot of time supervising new and temporary employees in pick/pack.

I have to say, I fondly look at, run, introduce to new employees and cherish our new strapping machine during this time as I did during the holiday season.

We have two more rolls of strapping in stock and they each last a very long time even at high volume.

The strapping machine is the perfect fit for us and it is running flawlessly! Our packages look so much better with a strap on them rather than messy tape and the whole process is much quicker and more professional. Anyone can run the machine and it is super quick! The packages always look great!

I am really glad you reached out to me at the perfect time and that you were able to provide me with this excellent solution for my business!

Stay Safe! Thanks again for reaching out; you’re the best!

Thank You! 
Sam Cutting IV, President
