
FOR IMMEDIATE RELEASE

Environmental Milestone: Wexler Packaging Products Advances Responsible Forest Stewardship Standards by Achieving FSC® Certification

March 2024: Wexler Packaging Products is pleased to announce that we have been granted our Forest Stewardship Council® (FSC®) Chain of Custody certification for ATS-Tanner Paper Banding Material. After months of learning, researching, training, and preparing, we are excited to be able to offer this to our customers.

The FSC® Chain of Custody certification means that we adhere to strict tracking requirements to ensure that products sold as FSC®-certified come from well-managed forests and controlled sources. As a company who heavily promotes responsible forest stewardship, this certification is a testament to our dedication to preserving and supporting responsible forestry. This certification reflects an in-depth evaluation of our supply chain to ensure it meets the highest standards for environmental, social, and economic responsibility.

We are committed to providing our customers with high quality products that are also environmentally friendly. This certification highlights our commitment to responsible practices, a healthy supply chain, transparency, and accountability. It also represents a significant milestone for us as a company, and we look forward to promoting products that can be certified in an area that is so aligned with our core values. If you are interested in learning more about the FSC®-certified material we have to offer, please feel free to reach out to us at sales@wexlerpackaging.com. To learn more about FSC®, visit www.fsc.org.

The mark of
responsible forestry
